trade solutions

Each subsidiary is locally led by wood industry professionals who combine deep regional expertise with Valasaha's global sustainability standards.

OUR PRODUCTS

A comprehensive portfolio of sustainably sourced wood materials

- Roundwood
- Sawn & Structural Timber
- Packaging Timber
- Veneer & Wood-Based Panels
- Engineered Products

WOOD SPECIES

From all over
the world

WHERE WOOD BEGINS

Supplying roundwood to veneer, sawmills, panel producers and other industries worldwide

Deep industry expertise ensures the right material for each production need

Local professionals assess tree quality, growth and utilisation in each region

Continuous expansion of our partner base and harvesting operations

Sustainably sourced softwoods and hardwoods from Europe and overseas

Key Species:

Spruce, Pine, Oak, Beech, Ash, Poplar, Birch, Maple, Elliotis Pine, Patula Pine, Eucalyptus

PRECISION IN EVERY BOARD

Wide range of hardwood and softwood lumber tailored to client specifications

Adaptable in dimensions, quality and finish to meet every project need

Processing options: Unedged / Edged / AD / KD / Steamed / S4S / E4E / AST

Trusted sourcing team ensures consistent supply and premium standards

Key Species:

Spruce, Pine, Ash, Oak, Beech, Teak, Eucalyptus

ENGINEERED FOR EXCELLENCE

Specialists in plywood, veneer and other wood-based panels of diverse species and grades

Partnering with renowned global manufacturers for quality and reliability

Global sourcing network built through years of collaboration and travel

Delivering the best balance of quality and pricing for each client's need

Applications:

Furniture • Construction • Interior Design • Industrial Use

SUSTAINABILITY AT OUR CORE

FSC® is a globally recognized certification ensuring responsible forest management that protects biodiversity, water, soil, and fragile ecosystems while maintaining forests' ecological integrity.

PEFC promotes sustainable forest management, ensuring timber and other forest products meet the highest environmental, social, and ethical standards throughout the supply chain.

Sustainability is not just a checkbox for us – it's the foundation of every decision we make.

WHERE WOOD BECOMES

S M A R T

SUSTAINABLE

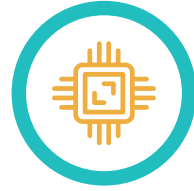

MADE-FOR-LIFE

ALL-ROUND

RELIABLE

**TECHNOLOGICALLY
ADVANCED**

A misty forest of evergreen trees, likely spruce or fir, with a soft, ethereal atmosphere. The trees are densely packed and their colors range from deep greens to a hazy blue-grey due to the mist. The overall mood is serene and natural.

UALASAHA[®]

DESIGNING WITH WOOD MEANS
BUILDING **HARMONY** BETWEEN
PEOPLE AND PLANET

OUR PARTNERS – INNOVATION IN ACTION

Our partnerships embody our philosophy

Pioneering thermally modified, long-lasting timber designed for durability and sustainability – extending the life of wood while reducing maintenance and waste.

Creators of the world's first engineered palm-based wooden board (PSB®) – a zero-deforestation, formaldehyde-free innovation that transforms agricultural waste into high-performance material.

THE VALASAHA ADVANTAGE
