OUR SCOPE AND COMPANIES

Creating a reliable global network

VALASAHA Group is a global trading and solution providing company in forestry and wood sector with focus on sustainability and innovative approach. Our roots are in Europe but we are active on an international scale, with 5 subsidiaries led by local professionals who are focused on sustainable sourcing of selected wood species and products. We are creating a valuable network of forest owners, harvesting companies, mills, and producers who altogether build up a world of endless solutions in areas of forestry, woodworking and trade.

Our products

VALASAHA supplies a wide range of products including roundwood, sawn and structural timber, packaging timber, veneer and wood-based panels. By continuously extending our partner base and maintaining our own harvesting, we offer many types of sustainably sourced softwoods and hardwoods as well as exotics.

UA LOGS

UA LUMBER

UA PANELS

Contribution to sustainability

As a responsible company, we try to maximize wood's social, economic, and environmental value both now and for future generations. We work constantly to improve our business processes to minimize our own environmental impact. We support a green world economy, the alignment of the economic growth with the demands of environmental protection, and the creation of a new sustainable social model which is changing the global position of forestry.

VALASAHA and its two subsidiaries – Tilian and Millwood are proud holders of the FSC® certification, declaring that the forests, harvested wood, and subsequent products that we work with are grown and processed sustainably and from proven sources.

The mark of responsible forestry

FSC®

FSC® is a globally recognized certificate guaranteeing the sustainability of fragile forest ecosystems. Today more and more companies are considering responsible forest management, which must preserve biodiversity and its associated values, water resources, soil, and unique and sensitive ecosystems and landscape features, thereby maintaining the forest's ecological functions and integrity, and VALASAHA is no exception.

We work in accordance with Forest Stewardship Council® standards (FSC-C157694). This certificate guarantees that the wood we supply has not been harvested illegally, and comes from forests managed in a close-to-nature manner. The FSC® certificate also ensures a fair wage, job security, and opportunities for educating people who work in the forest and in product processing. Regular audits by independent accredited certification organizations serve to guarantee the right to present this international certificate.

PEFC

PEFC is the world's largest forest certification system. PEFC, through the promotion of sustainable forest management, ensures throughout the forest product supply chain that timber and non-timber forest products are produced in compliance with the highest environmental, social, and ethical standards. Thanks to the eco-label, customers and consumers can identify products from sustainable forests. The PEFC Consumer Chain of Custody (CoC) certification, which we use at VALASAHA, is a mechanism for tracking certified materials from forest to the finished products, which ensures that wood, wood fibers and nonwood forest products contained in products can be traced back to certified forest. C-o-C certification is an important part of the PEFC system, as it ensures that forest product declarations are credible and verifiable throughout the supply chain. C-o-C certification is used to certify the entire value chain of forest products.

Having in our team specialists on veneer and wood-based panels enables us to supply high-class material of many species and qualities, manufactured globally by renowned producers. We have travelled across the world to find the best solutions for our clients in terms of quality and pricing, and we are glad that we can rely on our well-built supplier network.

PANELS

Plywood

Species:	Specification:	Glue:
Birch	Raw: B/BB/CP/C Film-faced/wire mesh/hexa/etc. Asian film-faced European raw (furniture & packaging)	Interior/ Exterior
European Spruce South American Pine North American Larch	Standard plywood specification	
Poplar	Asian film-faced European raw (furniture & packaging)	
Eucalyptus	Hardwood combi (raw and film-faced)	

Solid panels

Species:	Specification:	Glue:
Oak	Interior/ Exterior	Interior/ Exterior
Beech	Whole lamella	
Ash	Finger jointed	

OSB

OSB-3 / OSB-4
